Corporate Finance | Valuation & Financial Modeling | M&A / Transaction Advisory

SUMMARY

Finance professional with hands-on **valuation** and **deal experience** (DCF, comparable companies, precedent transactions and pro-forma modeling) across M&A and equity valuation, backed by **2+ years** at **KPMG** advising on **\$680M+ in transaction value**. Chartered Accountant (India), credential equivalent to U.S. CPA. Experienced in post-merger financial integration on a cross-border acquisition. Proficient in **Excel, Power BI, Alteryx** and **Tableau**, with a consistent record of turning complex and ambiguous data into clear, decision-ready analysis.

WORK EXPERIENCE

Research & Strategy Analyst, Venture Capital | Founders Institute, Illinois, USA

Jan 2026 – May 2026

- Built a comparative benchmarking database across **101 U.S. public universities** for Founder Institute - the world's **largest pre-seed accelerator**, scoring **24 parameters** (R&D expenditure, patent activity, VC funding, startup density, geographical accessibility) across research capacity, commercialization performance, and resource availability to guide partnership targeting decisions
- Created a centralized scoring dashboard using **Power BI** aggregating data from **8+ public** and **industry databases**, standardizing comparison across inconsistent reporting formats to prioritize a ranked **Top 20 University** target list
- Built a final Top 20 target list and partnership targeting framework from the full scoring analysis, adopted by Founder Institute leadership to guide its university expansion strategy

Senior Executive, Financial Due Diligence & Transaction Advisory | KPMG, India

Mar 2023 – Jun 2025

- Built **Alteryx-based automation** tools for **4-way** (invoice/PO/SO/delivery challan) and **3-way matching**, cutting testing **cycle time** by **5–7** days across multiple engagements
- Identified** and corrected a **methodology error** in contingent warranty estimates, **improving** reported P&L accuracy **by 10%**
- Identified **\$2M in inventory valuation errors** for a **\$160.5M** listed automotive client through accurate methodology
- Built an **automated revenue-stream identification tool** cross-referencing the revenue register against financial statements, surfacing revenue-matching errors for an automotive company
- Delivered **60+ data-driven analyses** (Alteryx, Power BI, Tableau) **directly to Boards, CEOs and CFOs across 80+** senior stakeholder meetings, informing transaction and reporting decisions
- Led **financial due diligence** on **\$680M in combined transaction value** - assessing revenue quality, working capital, leverage, and ROIC - to inform live buy-side and sell-side deal decisions
- Led physical inventory identification across 30 country wide location and completed the process in 3 days managing a team of **60+ people**

Financial Analyst Trainee, Assurance & Taxation | Marathe Padhye & Athalye CAs, India

Feb 2019 – Feb 2022

- Led financial due diligence and post-merger financial integration for a ~100-employee industrial automation company following its partial acquisition by a **Swedish multinational**, collaborating with a **German advisory firm**
- Calculated, accounted for, and completed regulatory compliance on 2 equity buy-back transactions valued at **\$17.6M** for an **automotive sector** company
- Singlehandedly managed banking portals and maintained global treasury operations for **5 US and Europe based clients**, monitoring liquidity and cash positions and executing bank transactions spanning across **energy, technology, manufacturing industries**
